1ST PLACE

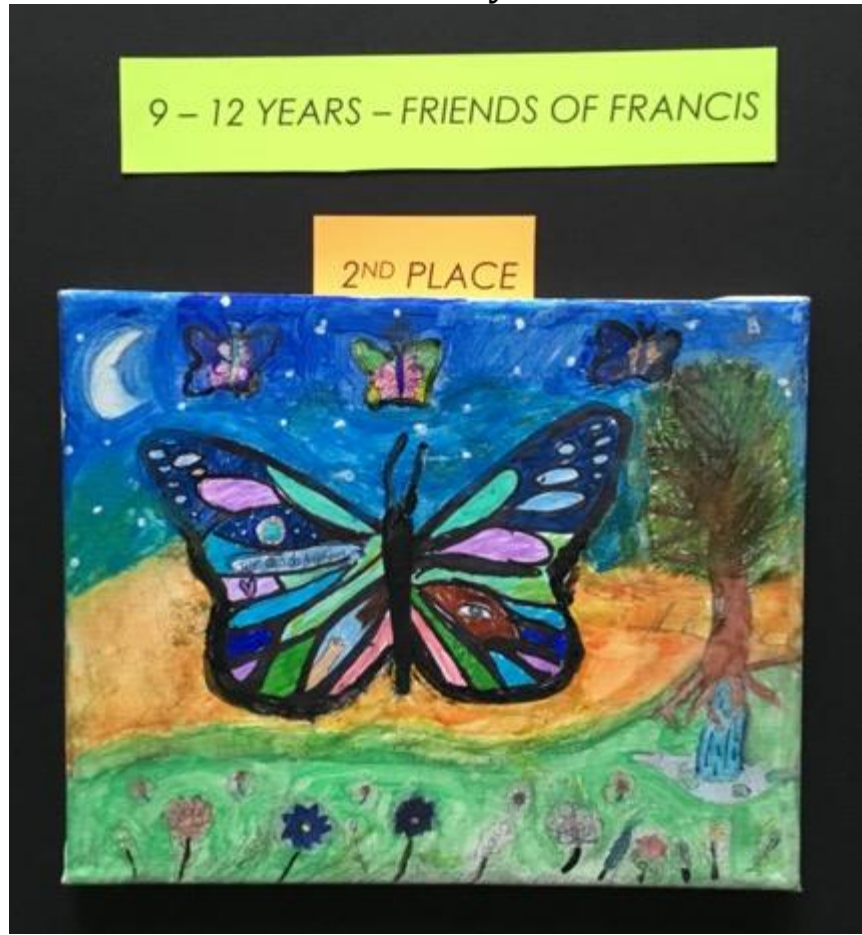

All humans in the world are brothers and sisters. We should be kind, and treat others the way we want to be treated.

Love has no color, caste or creed, rich or poor.

My picture shows our world a happy place when we live in peace and love one another, especially the elderly, the poor and the suffering.

Brothers and Sisters All

-By Emily Pillott (Age 14)

"Brothers and Sisters All" said Saint Francis,
A saint who loved all living things
He cherished every creation of God's,
Limbs, tails, fins and wings

But how like Saint Francis did,
Can we form a sense of unity?
Well acceptance is the key of course!
The key to form a strong community.

United we are through God you see,
Brothers and Sisters alike
So why do our differences separate us,
And fill our world with hate and dislike?

Individuality is important,
For we are all not the same
Diversity should make people proud,
And not bring them shame

Our colour of skin should not define us
Nor should our opinion
For we are all children of God
And for that, we must form one union

The past we cannot change,
Our sins we cannot take back
But tomorrow we can influence
And for this we must act

If people are what makes life colourful
Differences need a new point of view
We must accept each other for who we are,
And spread kindness starting with me and you

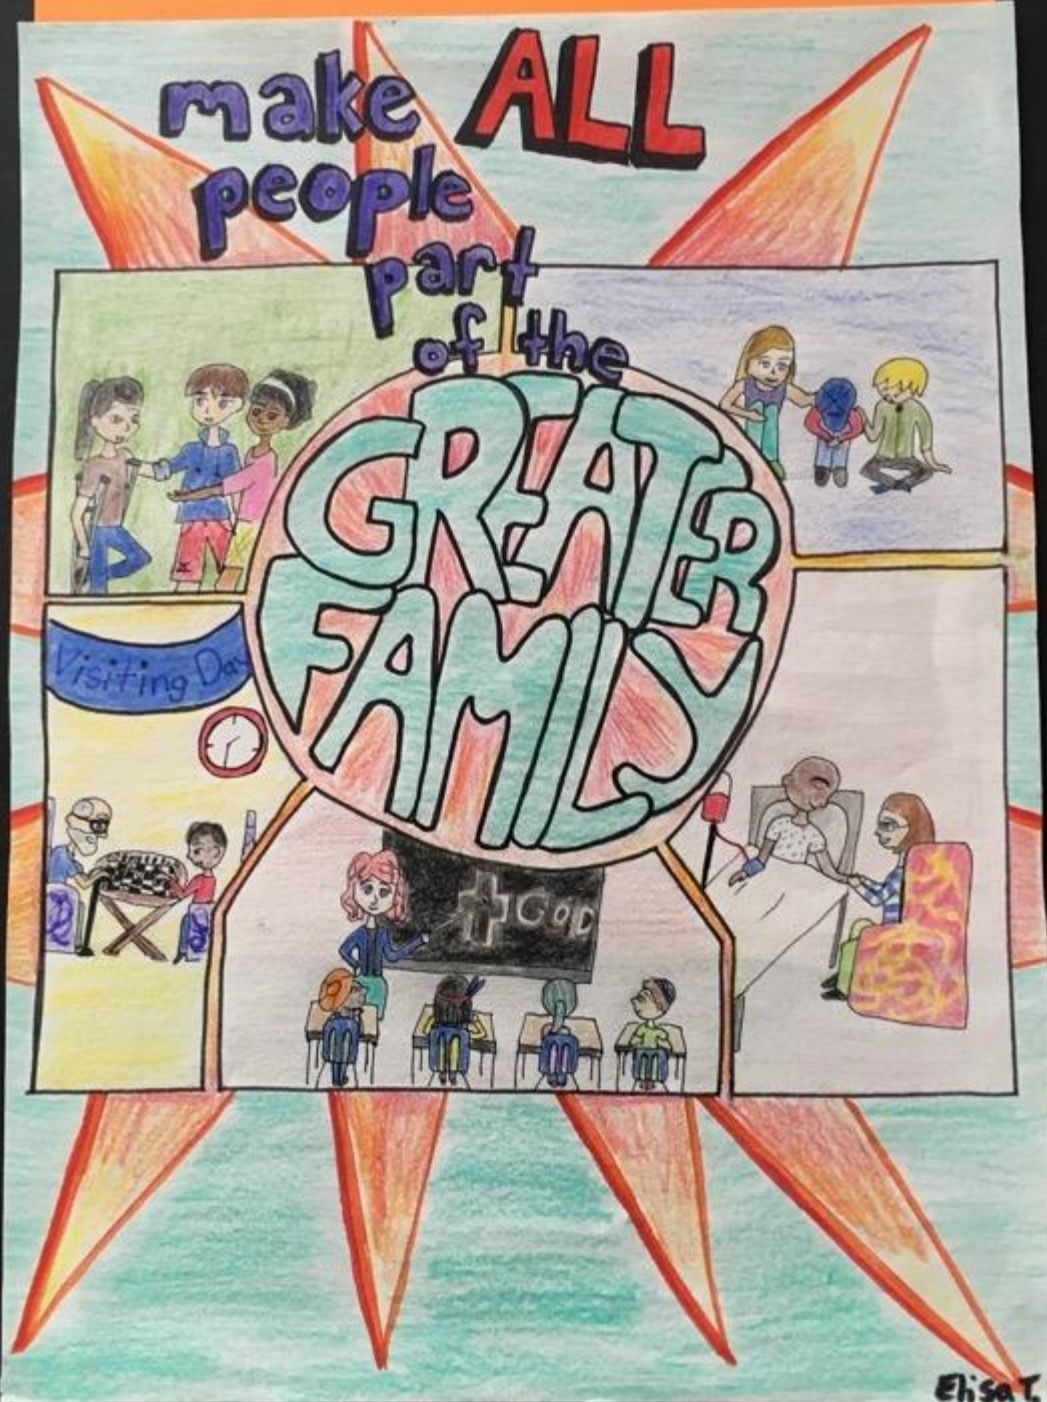

So today is the day,
For a brighter future to be made
One filled with unconditional love,
One where discrimination will fade
